POETIC FORM

THE RHYTHM OF CRAFT REDEFINED

"Success is born from vision, but it thrives through collaboration. When creativity, strategy, and craftsmanship align, a new product line becomes more than an offering-it becomes a movement."

Together, in harmony, we manifest innovation, turning ideas into impact and passion into lasting success."

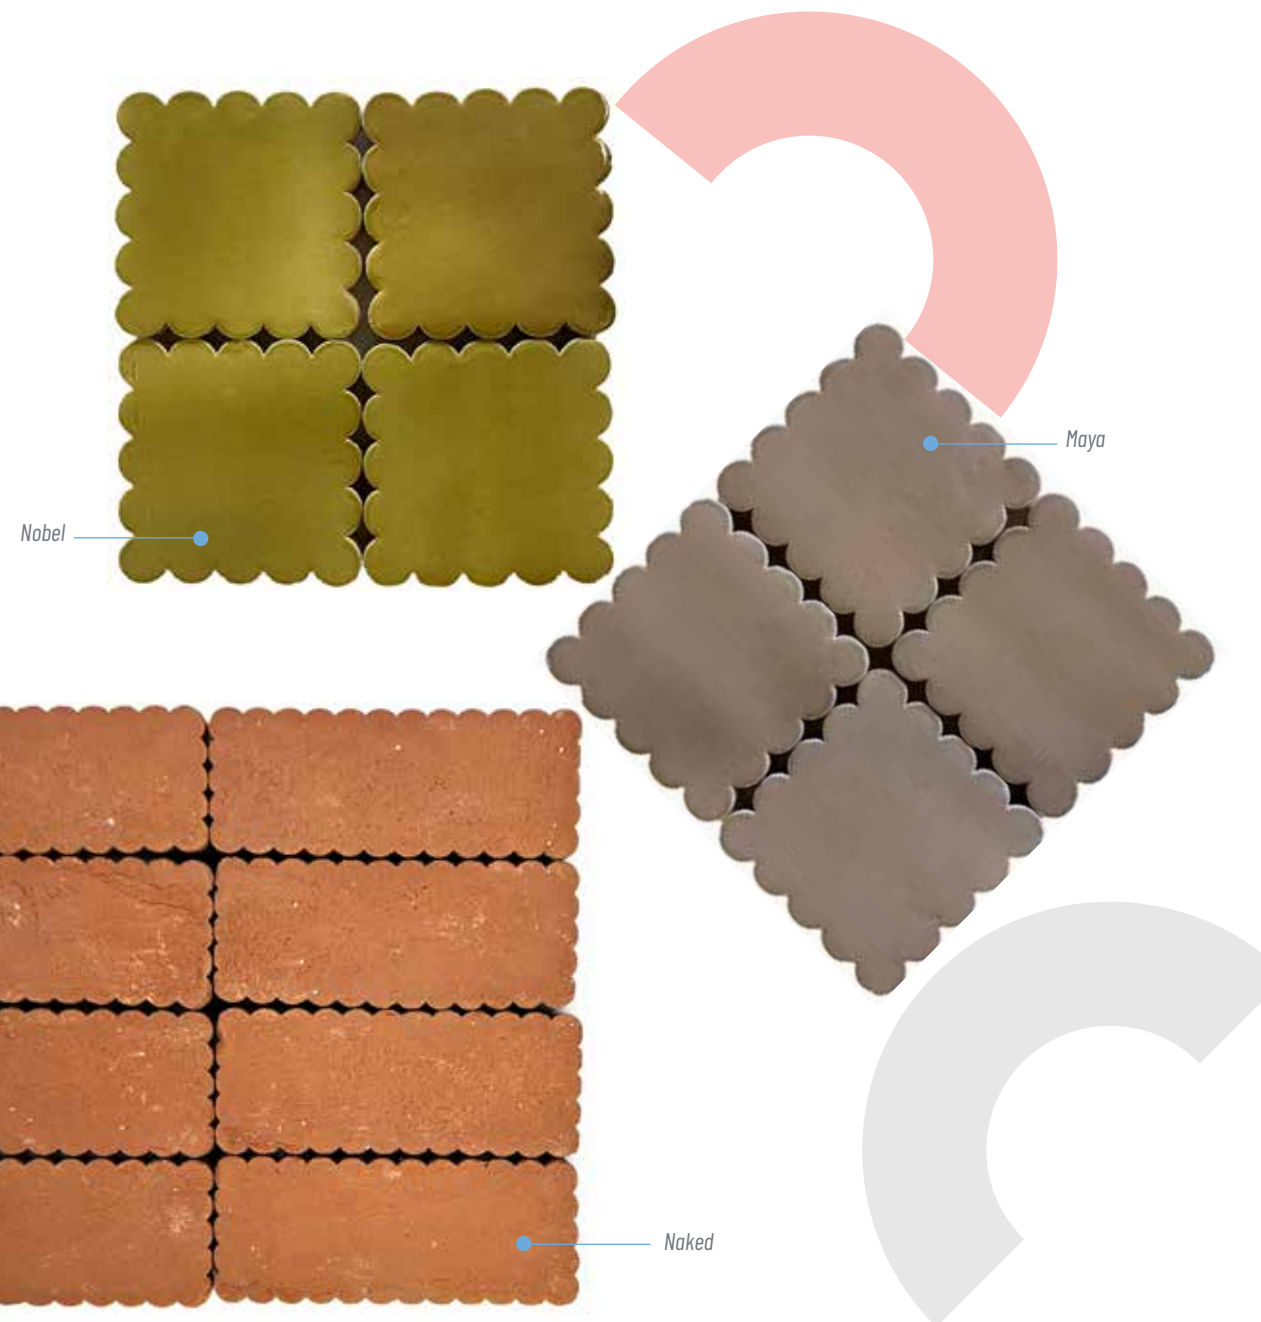

RENEE CHIARELLI, NCIDQ + LEED AP | MEDICI & CO

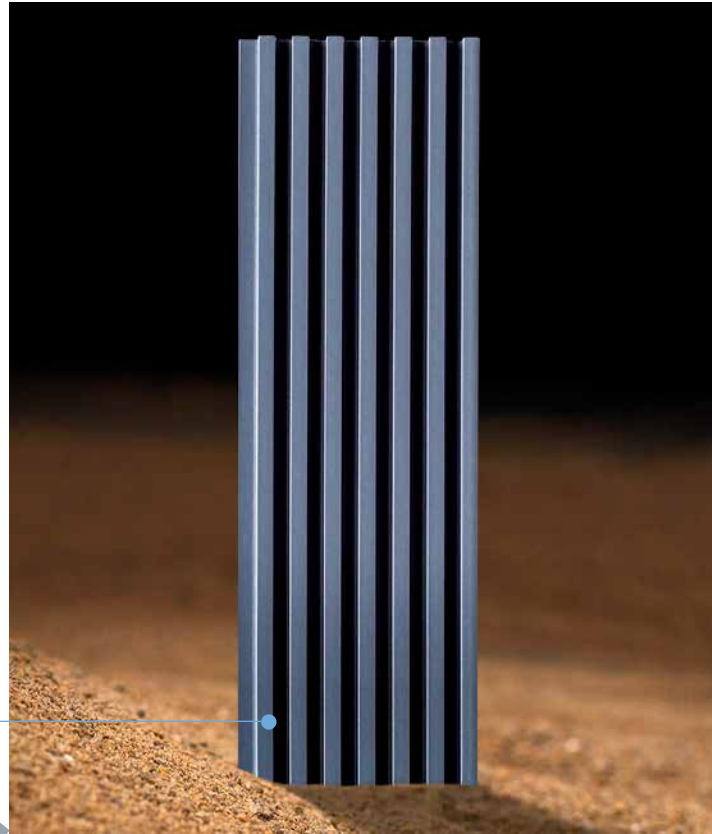

The first in an evolving series of ceramic explorations, the Poetic Form Collection examines the dialogue between precision and poetry in design. Departing from straight lines, these tiles introduce a sculptural rhythm - an intentional sequence of curves that brings quiet movement and artistry to the grid. Within this geometry, a poetic tension emerges: measured yet fluid, deliberate yet expressive.

Defined by repeated curved edges, each tile softens the rigidity of the traditional grid, transforming it into a composition of balance and motion. Within the interplay of curve and grout, geometry becomes expressive - structure takes on sentiment.

Born from the elemental fusion of earth and fire, every piece carries the quiet signature of its making, where hand and heat meet to shape material into meaning. Glazes pool along each contour, revealing tonal depth and shadow that shift with light. The result is a surface that feels alive - sculptural, rhythmic, and perfectly poised between restraint and artistry.

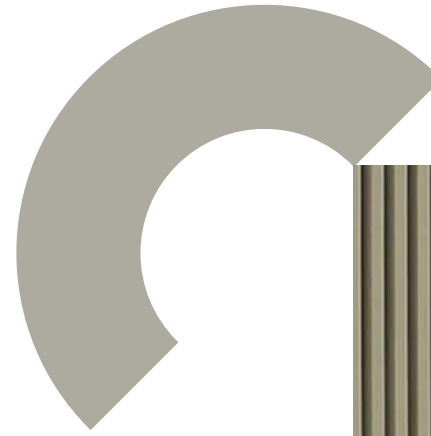

A poetic reimagining of the grid-curved, alive, and expressive -Poetic Form is a study in the beauty of restraint, a celebration of craftsmanship and imperfection, and an homage to the quiet rhythm that connects art, architecture, and the human hand.
